About Us

Since 1982, J and L Pallets delivers a higher Level of management execution for manufacturers throughout a large variety of businesses. Our main focus is customer satisfaction in the pallet industry while staying green and keeping our planet as green as possible. We offer ISPM 15 certified heat-treated pallets - the most economic and safe method for IPPC compliance when shipping throughout the world. Our ultimate goal is in the recycling of pallets in every way possible which helps make a difference in our community.
